

Parameter				
Spacings	76cm (66+10 Or 62+14) and 90cm	Engine	Power	325HP
Number of Rows	5		Model	Cummins QSL8.9-325
Machine Weight	15 T		Rated Rotation Speed	2200RPM
Cotton Collection Tank Capacity	28m³ with liftable tank		Idle Speed	850 ~ 1000RPM
Dimension	8125x4553x4975	Picking Head	Alternator	28V70A
Unloading type	Automatic		Number of Picking Head	5
Power Supply Voltage	24DVC		Drums	5×2 (10)
Battery Pack	2X12V165AH		Bars	5×2×12 (120)
Driving control system	Hydraulic variable speed & 3 speed mechanical transmission		Spindles	5×432 (2160)
Fuel Tank Capacity	400 L		Picking head speed	1480RPM
Cleaning Liquid Tank	1000 L	Driving speed	Spindle Speed	4322RPM
Hydraulic Oil Tank	220 L		Height Control Type	Hydraulic Copying
Grease Filling	External quick plug		Field Range I	0-6.0KM/H
Hydraulic System	Danfoss		Field Range II	0-7.5KM/H
Electric System	Danfoss		Transport Range	0-25KM/H
Fan rotation speed	3950RPM		Reverse	0-4km/h
			Rear Steering Wheel	Rim : W13-24 Tyre 14.9-24
			Front Driving wheel	Rim : W18-38 Tyre 20.8-38

Features

- 1.High-power turbocharged engine with powerful performance
- 2.Advanced electronic controlled automatic gearbox, One button control with more accuracy and reliability
- 3.Fully electronic controlled operation, say goodbye to variable speed line, throttle line etc.
- 4.Large-capacity cotton tank with double layers to reduce the unloading time, with more working efficiency
- 5.Picking head, fan, and driving mechanism are all powered by hydraulic motors with more reliability and easier operation
- 6.Luxurious cabin with large space and large viewing angle, clean and comfortable environment, relieve fatigue
- 7.The air is blown by the vertical fan, provides stronger wind and faster picking speed, greatly reduced the cotton blockage
- 8.Unique engine compartment warming waterway design, no longer freezes when picking cotton
- 9.Newly enhanced integral welded rear axle, increased widened low pressure rear wheel, more stable cotton picking and better work quality
